SERVING RETAIL, FOOD SERVICE  
& INDUSTRIAL FOR MORE THAN  
50 YEARS

# A BRIEF STORY ABOUT US

Badia Spices is a family-owned business by Joseph "Pepe" Badía and his 3 daughters.

Our humble start began in Miami, Florida more than 50 years ago when Pepe's father founded the company. Shortly after, Pepe joined his dad to serve the small bodegas in Miami.

From trademarking Pepe's very own creation: Complete Seasoning®, to expanding from a small garage to over 500,000 square-foot of Distribution and Production Facility, Badia is now a Global and Nationwide Company that is a leader in the spice category.

Currently offering a wide variety of products for every need in every size. From Take-Out Packets to Pails and Industrial Sizes. Spices & Herbs, Seasoning Blends, Olive Oils, Beverages, Hot Sauces, Teas, Marinades & Dressings, Organic & Healthy items, Side Dishes, and Soup Bases, are some of the categories.

While sourcing for raw material is around the globe, Corporate Headquarters, Production, and Distribution Facilities are all located in South Florida.

JOSEPH "PEPE" BADIA, CEO & PRESIDENT

DISTRIBUTION BUILDING

# QUALITY

Quality and Safety are pillars for us and we take them very seriously that is why all of our products are processed under strict quality control guidelines.

We have different Control Point analysis with X-Ray, rare earth magnets and lab testing, Food Safety Plan based on HACCP (Hazard Analysis & Critical Control Point) principles. And we have a team that completed HACCP Professional Training by Silliker and SQF practitioners employed full time, and two (2) Preventive Control Qualified Individual's (PCQI).

We proudly have the following certifications:

- Kosher Certification
- Organic Certification
- Gluten Free Certification
- Halal Certification
- SQF (Safe Quality Foods) Score = 98
- We meet International Food Standards
- GFSI (Global Food Safety Initiative)
- FRMBC (Florida Regional Minority Business Certification)

# GREEN INITIATIVE

Badia is a member of Sedex and is using the 17 Sustainability Development Goals set by the United Nations in 2015 to develop and continuously improve our international sustainability initiatives, and in turn we ask our suppliers and partners to do the same.

The Initiative of Solar Panels has begun in our Distribution Facility, with plans for solar panels to all of our production and storage facilities in the next three years.

Also, all of our warehouses has been converted to LED Lighting many automatic sensors, by reducing electricity consumption we reduce our carbon footprint in the process. LED's last longer, have low maintenance, and result in low energy costs, and the tubes are recyclable!

At Badia we are continuously evaluating our consumption of goods and how we affect the planet from energy efficiency to production efficiencies. As one example of many, we recently improved production of three lines to a 400 unit per minute line.

We are actively pursuing biodegradable films and other unique packaging ideas that will help us reduce our footprint, Less plastic and innovative packaging protect and support the well-being of our ocean, our PET bottles and caps are recyclable.

Badia is committed to the continuous improvement and the initiative of programs with our suppliers to meet the goals set out by the United Nations and its sustainability initiatives.
